

Drinking Water Service Line Material Reporting Form

The City of New Plymouth is creating an inventory of what pipes in the water system are made of. Please identify the material of your water service line using the *Customer Guide for Identifying Lead Service Lines* and report your findings using this form. We will use the information you provide to update our records and create an inventory that will be used to identify and then replace lead service lines in our community.

If you have questions about what type of material is used for your water service line, please refer to the *Customer Guide for Identifying Lead Service Lines* or contact us at beau@npidaho.com.

Also, **please take a photo of your water service line and submit it, along with a photo of the completed form at beau@npidaho.com or deliver to the City Clerk's office at 215 N. Plymouth Ave. in New Plymouth.**
